

WILLIAM HARDMAN

+44 7535 397502

UNITED KINGDOM, North West.

Willhardman16@hotmail.co.uk

I'm an experienced LED technician and camera operator, passionate about tackling challenging projects that push me both mentally and physically. I have hands-on expertise with ground-stacked and flown LED builds, cable management, working at height, and operating Brompton and Novastar systems, alongside experience on a variety of camera rigs and positions. Collaborating closely with crew chiefs as LED 1 has strengthened my skills in time management, delegation, and team coordination. I thrive in fast-paced environments, bringing adaptability, focus, and a proactive approach to every project. Always eager to learn and grow, I'm looking to contribute my technical skills and creativity to clients who value dedication and precision.
